# 课程作业

## 1.

• 750100个

$$50 \times 50 \times 3 \times 100 + 100 = 750100$$

## 2.

• 2800个

$$100 \times 3 \times 3 \times 3 + 100 = 2800$$

## 3.

- 输出通道数为36
- 图像高宽:

$$\lfloor \frac{63+2\times 2-5}{2} \rfloor + 1 = 32$$

• 所以图维度为32 × 32 × 36

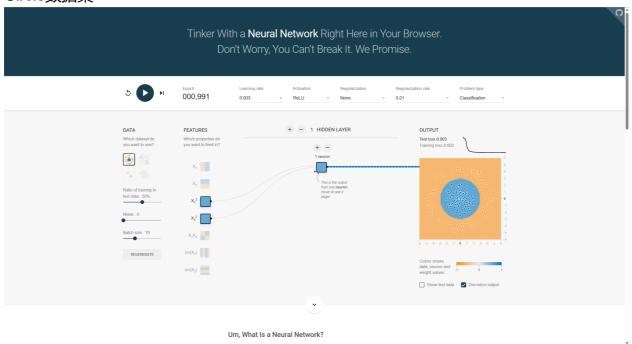

### 4.

• 应该设置为3

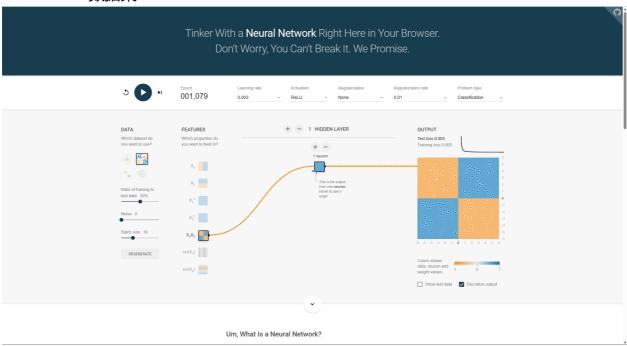

$$egin{aligned} \lfloor 63 + 2 imes padding - 7 
floor + 1 = 63 \ padding = 3 \end{aligned}$$

**5**.

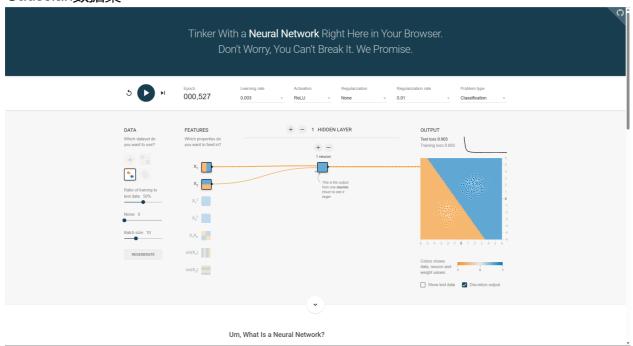

#### Circle数据集

#### • Exclusive or数据集

#### • Gaussian数据集

#### • Spiral数据集
